Name **LED High Power Strong Light Searchlight**

Brand **SHUNLE**

Type / number of model **BL-T8830 (on the product); SL-8830 (on the packaging)**

Batch number **6 944800 888304**

Product description **Rechargeable LED torch. The battery can be charged via a built-in mains cable which is placed in a storage compartment. Packaging: colourful cardboard box.**

Risk type **Electric shock
Fire**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The cross-sectional area of the core of the wires is insufficient: in case of a short circuit the wires may overheat and cause a fire. Also, live parts can be touched when connecting the mains lead, since the dimensions of the plug are not suitable, and the protective cover for the LEDs can be removed by hand during charging leaving live parts accessible. In addition, the storage compartment has sharp edges which can damage the insulation of the mains lead. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN 60598.

Product **Vehicle lift**

Brand **Unknown**

Type / number of model **QJY-B4000**

Product description **Vehicle lift, intended for the wheel-free lifting of vehicles up to 4000 kg.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The automatic mechanical locking system for the carrying arms has elongated holes and there is consequently a risk that it can disengage. The locking of the system is dependent on a thorough adjustment and tightening which will foreseeably not be done during normal use. If the carrying arms move from the supporting position during use the vehicle can fall and crush the user. One fatal accident reported. The product does not comply with the requirements of the Machinery Directive and the relevant European standard EN 1493.**
