| Product description | Top box for Honda scooter (PCX125 and PCX150). |
| Risk type | Injuries |
| Legal provisions (at EU level) and European standards against which the product was tested and did not comply | There is slack in the locking mechanism for the top box and it may not be completely locked. As a result, the top box could fall off when the scooter is in use, causing a risk of an accident for other road users. |
