Product **Toy gun**

Name **Pistolet avec Chargeur ('Gun with magazine')**

Brand **B&G International**

Type / number of model **reference 29039**

Batch number **3588270029039 ; batch CF160002**

Product description **Toy gun with magazine and 10 soft bullets, sold in a cardboard box.**

Risk type **Injuries**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The tip can easily be separated from the rest of the bullet and the gun can still be used with such bullets. The kinetic energy released by the gun when using these bullets is too high and could cause injuries, particularly eye injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.**

Product category **Toys**

Type **Consumer**

Product **Pull-along toy**

Brand **Unknown**

Type / number of model **art. 5102**

Batch number **4820065651025**

Product description **Four-wheeled plastic toy made of hard plastic parts in different colours. There is a string with which the toy can be pulled. The toy has a puzzle on its back consisting of five parts (with a dog and clock inside) and is packed in a plastic net.**

Risk type **Choking
Strangulation**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The toy can easily break during play, generating small parts (clock's hand and one leg and a tail from the dog puzzle). Small children may take the small parts and put them in the mouth, causing them to choke. The string to pull the toy is too thin and too long; if it wraps around a child's neck, it could lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.**

Product description

A full body harness with back attachment for fall arrest and belt for work positioning.

Risk type

Injuries

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Full body harness has an A-marking at both D-rings of the belt. A capital letter "A" should be at each fall arrest attachment element of the full body harness. The D-rings of the belt were not intended for arresting fall. Using these D-rings as attachment elements in a fall arrest system would cause severe or lethal injuries in the case of falling from a height. The product does not comply with the requirements of the Personal Protective Equipment Directive.

Product	Travel plug adapter
Name	TRAVEL UNIVERSAL ADAPTOR / UNIVERSAL POWER PLUG ADAPTER
Brand	GTV
Type / number of model	931L; AE-TA1UNI-00
Batch number	5 901867 124517
Product description	Travel plug adapter for use worldwide. Packaging: blue cardboard box.
Risk type	Electric shock

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Single-pole or partial insertion of a plug is possible leaving the free remaining live pin, or the partially plugged-in pin of the plug, accessible. The plug pins which carry mains electrical current can become exposed during use of the product exposing the user to live parts. It is possible to insert devices which should be earthed into the socket-outlet part of the adapter but the earth circuit continuity is interrupted. The product does not comply with the requirements of the Low Voltage Directive and the relevant international standard IEC 60884 and the relevant national standard.

Name **100 MUSIC LIGHTS WITH MUSIC DEVICE**

Brand **Unknown**

Product description **Lighting chain with 100 replaceable miniature lamps. The product is equipped with electronics for sound effects. Packaging: colorful cardboard box.**

Risk type **Electric shock
Fire**

Legal provisions (at EU level) and European standards against which the product was tested and did not comply **The cross-sectional area of the external and internal wires is too small and they can overheat. The wire ends are not adequately protected against pulling and twisting. The accessible wires have only basic insulation and are in contact with sharp edges. The insulation of the lamp holders is inadequate. The product does not comply with the requirements of the Low Voltage Directive and the relevant European standard EN 60598.**
