Risk type	Fire Injuries
Risk description	Vehicles may be fitted with cylinder blocks which are missing a cooling nozzle. If a cooling nozzle is missing, the piston may not be cooled down sufficiently, potentially causing it to weaken, warp or break. This could lead to sudden engine failure, causing power transmission loss. This could also

trigger thermal runaway leading to fire and injuries of the passengers.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

Production dates	7.05.2025 to 8.05.2025
Company recall code	25S98
Product description	Lorry
Risk type	Injuries
Risk description	An insufficiently screwed-on brake caliper bracket can lead to brake failure. The brake caliper may become detached from the axle due to insufficient tightening torque of the rear brake caliper mounting screws. This could lead to damage to or breakage of the brake hose, resulting in a sudden leak of brake fluid and reduced braking performance. The low brake fluid level warning indicator lights up, accompanied by a corresponding indication in the instrument cluster. This may

lead to accidents.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Notifying country	France
Product category	Motor vehicles
Type	Consumer
Product	Passenger car
Name	Cube
Brand	Nissan
EC-type approval/model	e13*2007/46*1059
Production dates	10.10.2008 - 25.9.2010
Company recall code	R26A1
Product description	Passenger car.
Risk type	Injuries
Risk description	The inflator in the driver airbag has a laser-welded internal seal (left side) that may not reliably hold during deployment. This may lead to a risk that the airbag module could become separated from the steering wheel when it is activated. This can cause metal fragments to be projected at great speed through the airbag into the interior of the vehicle, which can result in serious and even fatal injuries for the occupants.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles.

Product Magnetic toy

Name Magnetic Sticks

Packaging description Bag in cardboard box.

Brand Adar

Type / number of model LM420

Batch number 53454

Barcode 5901271622975

Product description Magnetic toy consisting of 40 plastic magnetic blocks and 18 metal balls.

Risk type Injuries  
Suffocation

Risk description The toy contains small magnets with a high magnetic flux (measured value up to 0.76 T<sup>2</sup>mm<sup>2</sup>). If a child swallows the magnets, they could attract one another causing intestinal blockage or perforation. Moreover, the bag of the packaging is non-permeable and its closing includes drawstrings. If a child

plays with it and tightens the drawstrings, the material can cover the mouth and nose, causing the child to suffocate.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.

Product	Hair straightener
Name	DUAL PURPOSE HAIR STRAIGHTENER
Packaging description	Cardboard box.
Brand	*CRAS*
Type / number of model	8889
Barcode	6972802455613
Product description	Hair straightener. Product sold online, in particular via Temu (product identifier: 601099519143476).
Risk type	Burns Electric shock
Risk description	There is insufficient creepage and clearance distance between circuits and the product has insufficient insulation. The user can access live parts and receive an electric shock. Additionally, if the power cable touches the metal plate, it may be damaged and pose an electrical hazard. Moreover, the handle of the product can overheat and cause burns to the user.

Legal provisions (at EU level) and European standards against which the product was tested and did not comply

This product does not comply with the requirements of the Low Voltage Directive.
